Lithos  
Mosaico

L'uomo è stato artefice di opere meravigliose che han sfidato secoli e millenni. L'arte è stata lo spirito sublime che ha permesso all'uomo di creare tutte queste opere, sulle quali si è scritta la storia. La pietra da sempre si è offerta alla realizzazione di queste meraviglie, si è fatta mezzo dell'arte per segnare le epoche, si è espressa in mosaico per giungere fino a noi, attraversando le glorie greco-romane ed i fasti bizantini.

Grandi e piccole scene musive ci han permesso di risalire a tecniche e materiali che Lithos ripropone oggi con nuova linfa per le più moderne applicazioni architettoniche.

Lithos ha saputo raccogliere questa preziosa eredità ed è divenuto interprete di questa forma d'arte unica, venendo incontro al gusto di un vasto pubblico e assecondando le diverse esigenze del cliente.

Un mosaico Lithos si integra subito e perfettamente con l'ambiente che lo accoglie, grazie alle sue finiture che vanno dal lucido all'antico ed ai suoi colori originali e raffinati.

In ogni mosaico Lithos la scrupolosa lavorazione artigianale si coniuga magistralmente con le tecniche più evolute, generando opere che possiedono personalità e anima e che caratterizzano qualsiasi ambiente nel quale vengono collocate.

Mani sapienti addomesticano piccoli tasselli di pietra in forme perfette e complesse. Ad ogni sguardo verranno generate emozioni, che saran custodite per sempre.

LA PIETRA COME SUPERFICIE E SIMBOLO  
*STONE AS A SURFACE AND AS A SYMBOL*

Lithos

*Human being has been the artificier of marvellous works which have challenged centuries and millenniums.*

*The art has been the sublime spirit which has consented to the human being to create all these works on which one has written the history. From time immemorial, stone, has offered it self to the realization of these marvellous works and it has become the art's means to mark the ages; It has expressed it self in mosaic to reach us accrossing the greek and roman glories and byzantine fasti.*

*Great and petty mosaic scenes have helped us to go up again to techniques and materials that lithos proposes today with a new sap for the most modern architectural applications.*

*Lithos has been able to pick up this precious inheritance , it has become interpreter of this singular form of art, reaching the taste of a great public and favoring the different customer's needs.*

*A lithos mosaic fits harmoniously into the environment that welcomes it, thanks to its polished and ancient finishes and thanks to its original and refined colours.*

*In every lithos mosaic the scrupulous and handicraft working links it self to the most evolved techniques producing works with a personality and a soul which characterize every kind of envirement where located.*

*Skilled hands process the little stone wedges into perfect and complex forms and for every glance givent to, they will be able to provoke emotions , for ever preserved.*
